DOUBLE YOUR MONEY BACK GUARANTEE

Dear Dealer:

It's no secret here, so therefore let it be no secret to YOU, that we, here at NATION are out to recapture the lead and prestige we used to enjoy in the motorcycle accessories.

HOW ARE WE GOING TO DO THIS?

FIRST—We want to tell you that 98% of the items we manufacture are chrome plated. By that we DON'T mean just a little luster that will rust or tarnish with each passing cloud. What we DO mean is that each and every item gets a triple plate of copper, nickel and chrome, that it is polished between each application which brings out the high luster and gleaming finish so highly desired by your customer "THE RIDER."

SECOND—WE KNOW and want YOU TO KNOW that our new line of accessories will dress up that motorcycle like it has never been done before —BY ANYONE. Without any further praise on looks, quality or workmanship we wish to GUARANTEE—DOUBLE YOUR MONEY BACK if you and the riders do not agree, our new line of accessories are tops in the motorcycle field.

HOW CAN WE MAKE SUCH A STATEMENT?

WE KNOW AND WANT YOU TO KNOW THAT NATION REALLY HAS "THE STUFF."

Gordon A. Wiley

Our new shield is designed to fit any type of motorcycle handlebar, either foreign or domestic makes.

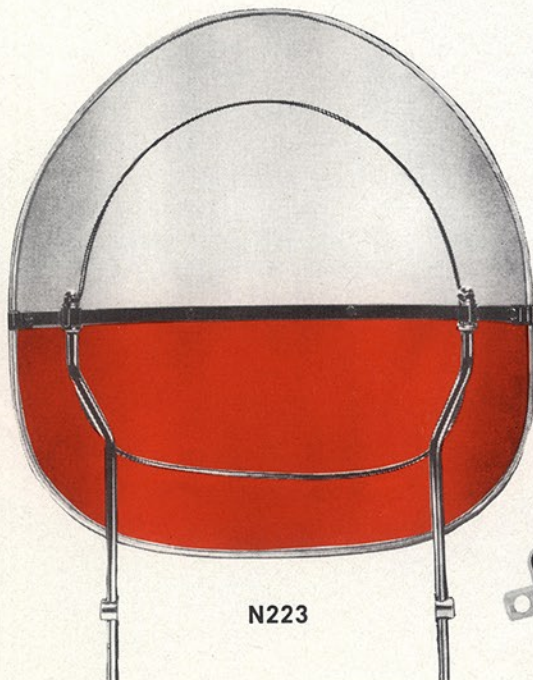

The uprights are attached to the main crossframe by a taper attachment arrangement. By merely easing the tension on the cap nut at the top, you may swing the uprights to any angle or width, from 6½" to 12½". This taper attachment is without a doubt the most simple, rugged and durable method that

has ever been devised by man to fasten two pieces of metal together.

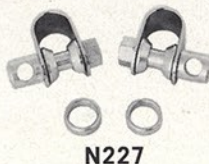

This method is used on all Nation-Bilt windshields other than the Cushman Golfer. The triple plate chrome as referred to in our introduction is on all Nation-Bilt windshields. WE KNOW AND WANT YOU TO KNOW.

NATION-BILT GRIPS AND STREAMERS

The most practical grips ever developed in the field. A patented innovation without an equal anywhere. Spiralling rifle-barrel grooves gives a positive grip without a chopping effect on the riders' hands, also allow for air-cooled comfort.

THE "TWISTER"

These plastic grips were designed with the comfort of each and every rider in mind. Heavy, smooth SPIRALS run the length of the grips to insure easy gripping without any chopping effect. These grips fit all 1" handlebars including all models of H.D. motorcycles.

There is a Right and a Left grip which is a patented feature. If you are young enough to do the Twist, try our "Twisters."

Colors are red, blue, black, green, yellow and white.

LUGGAGE CARRIER

This is without a doubt the best looking luggage carrier ever built for motorcycles. Ruggedness has not been sacrificed for good looks. No holes to drill, mounts with eye-bolts thru holes in saddle bag plates to side of fender.

Carrier consists of seven runners, equally spaced $\frac{3}{4}$ " apart with rounded, completely closed, ends. This gives the carrier a finished look of a job well done.

TRIPLE CHROME PLATED.

N721—Luggage Carrier **\$9.75**
(Comes complete with mounting eyebolts, spacers & nuts)

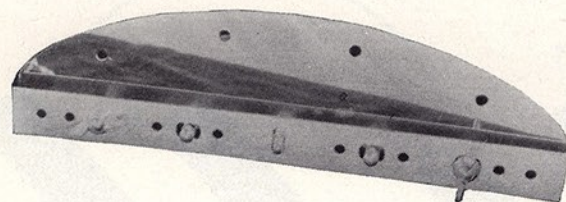

N707

SADDLE BAG PLATES

Easy to convert from rigid mounting with our new detachable plates. Saddle bag plates are anchored firmly and securely to side of fender with our demountable saddle bag studs. Bag is swung on to the four studs, that is, riveted to the side of the plate. By simply removing two wing nuts—"away we go!"
