

NEW Vintage-Style Beaded Windshields for 1936-47 and 1948 FL/FLH Models!

These new reproduction windshields were modeled directly from actual vintage windshields that we have at National Cycle.

We have them because... well, we *MADE* them... beginning in 1937. If you have an old, original windshield, it was made by us... and no one else. So if you need a period-correct reproduction windshield for your 1936-47 Knuckle or 1948 Pan, get it from the people who have been manufacturing v-twin windshields for over 80 years - National Cycle.

Complete Windshields

The National Cycle Vintage Beaded Windshields come complete with mounting hardware exactly like the originals, and with lower sections in your choice of Clear, Blue, Red or Black.

Period-Correct Reproductions

Original period windshields were made from Pyralin plastic, which was somewhat flexible and thus required a beaded edge as well as a steel reinforcing ring.

These new reproductions are made from virtually unbreakable polycarbonate with the upper section having National Cycle's exclusive Quantum® hardcoating for the world's best scratch resistance.

The beaded edge and steel ring are retained for an authentic, period-correct appearance.

National Cycle polycarbonate windscreens are protected by a 3-Year Warranty against breakage. National Cycle products are proudly made in the U.S.A.

SKU	Description
N2200	Vintage Beaded Windshield; Clear Lower
