

BY NATIONAL CYCLE

Accessories for BMW® F Series and G Series Motorcycles

Welcome To ZTechnik Worldwide

We are pleased to bring you this accessory catalogue and welcome you to the ZTechnik product line. ZTechnik, a division of National Cycle, Inc., specializes in high quality, innovative accessories for BMW Motorcycles.

The name itself, ZTechnik, is from the German "Zubehör Technik," which roughly translates to "technical accessories" in English. The philosophy of ZTechnik is to adhere to strict standards to produce only the highest quality accessories possible in order to enhance the rider's total experience.

Come ride with us, and you will experience the spark that drives a product into the design phase. It's not where we hang our helmets that these accessories are born... they find a place onto the pages of this catalogue after many miles of riding and talking with other BMW riders. The riders, the roads, and the experiences are all very different, but the one common bond all motorcyclists seem to share is the innate urge to mold their bike to themselves.

As great as the machines are, riders need products and accessories to solve problems, to carry gear, or simply for the fun of customizing their motorcycle, for making their bike unique.

We would like ZTechnik to augment your needs when it comes time to make your BMW motorcycle special. Our highly trained, technically skilled staff is at your service with our latest innovative products designed to enhance your enjoyment of riding.

Good Riding!

Barry Willey
President, National Cycle, Inc.

MATERIAL ICONS

Quantum® hardcoating takes a quantum leap forward in scratch resistance, superb optics and long outdoor life. National Cycle and ZTechnik apply this crystal clear hardcoating to thick gauged **polycarbonate** material. The combined result is the strongest, most scratch resistant windscreen material available anywhere.

FMR hardcoated polycarbonate windscreens provide unbeatable strength, excellent optical quality, and extremely good scratch resistance. FMR polycarbonate is the OEM motorcycle industry standard and was first introduced to the motorcycle industry by National Cycle, Inc.

High strength **Stainless Steel** material is extremely resistant to corrosion and will not fatigue under weight bearing, high stress loads. Finish varies depending on product.

High strength **Steel** material will not fatigue with weight bearing and high stress loads. Finish varies depending on product.

Our **Machined Aluminum** products are impressively milled and solidly constructed. Available in several anodized finishes.

Cast Metal, a time-honored method of pouring hot metal into a mold, enables us to create complex and multi-dimensional designs.

OTHER ICONS

All Hardware and Fasteners Included that are required to mount the item. Supplemental hardware may be required for certain models as noted in our application chart.

Uses Existing Mounting Hardware and requires no supplemental fasteners.

An exclusive **3-Year Warranty** covers all registered ZTechnik polycarbonate windscreens against breakage. Register yours at www.ztechnik.com.

ABE Approved for German homologation. All ZTechnik windscreens are U.S. DOT approved as well.

ABE Pending. U.S. DOT approved.

New Products are identified with this icon at the top of each page.

All ZTechnik products are manufactured in Maywood, IL U.S.A.

POLYCARBONATE... OR ACRYLIC? YOU DECIDE!

When you watch ZTechnik's online video demonstration, you'll see why they manufacture their windscreens from impact resistant polycarbonate material. There is simply nothing else that stands up to its strength and durability.

Compared to standard acrylic windshields, polycarbonate is **20X more impact resistant** and **23X more crack resistant**. That's performance you can feel comfortable riding behind!

For Quality, Value and Price, whether it's FMR or Quantum hardcoated, your polycarbonate windshield from ZTechnik will outperform any other windshield available.

"The ZTechnik® windscreen on my 2003 R1150GS Adventure saved my life recently, or at least prevented a serious highway accident.

"While I was riding on the interstate, a landscaping truck in front of me lost a 12"x12" paving tile, which struck my ZTechnik screen. I saw it coming and could do nothing but brace for the impact. The screen deflected under the weight and velocity of the paving tile, but did not break or crack! I was able to maintain control and safely exit the highway to check for damage. There was none!!! Except for some scratches, as you might expect, the screen and the mounts were in good functional order.

"I will need to replace the screen due to the scratches, and I will certainly get another ZTechnik screen!

"Many thanks for the best windscreen I have ever used!"

~ Jim B.

Polycarbonate Strength

Welcome To ZTechnik Worldwide

ZTECHNIK'S QUANTUM LEAP IN WINDSCREEN HARDCOATINGS

What makes ZTechnik's hardcoated windscreens better than all the others?

SUPERIOR SCRATCH RESISTANCE

30X more scratch resistance than typical acrylic windscreens is saying a lot! Think of it as 30X more miles per windscreen. FMR hardcoated polycarbonate is a big improvement over acrylic, yet Quantum hardcoated polycarbonate even has **10X better scratch resistance than FMR**. That's the kind of performance and strength you need from a motorcycle windscreen!

GLARE-FREE OPTICS

Think about riding into the sun – or at oncoming headlights at night – and not having to look through the glare of fine scratches that eventually show up on your screen. Quantum hardcoating gives your windscreen much better optical definition and clarity, and your windscreen will stay that way a lot longer.

On the left you'll see the motorcycle windscreen with typical surface wear, scratches and abrasions. This is NOT what you want in front of you when facing oncoming traffic!

Scientific laboratory monitoring and measurement instruments, like ZTechnik's Tabor 5130 Abraser, test the surface wear on both hardcoated and uncoated windscreen materials.

AND... ZTECHNIK'S 3-YEAR UNBREAKABLE WARRANTY

We believe we make the **world's best and toughest windscreens** and we back up that commitment with a **3-Year Warranty against breakage**. If your ZTechnik polycarbonate windscreen breaks, it will be replaced free of charge! No other windscreen manufacturer makes that promise and commitment!

Registering your ZTechnik windscreen is easy! Just go to www.ztechnik.com.

Welcome To ZTechnik Worldwide

THE REVOLUTIONARY VSTREAM® WINDSCREENS

HOW DOES VSTREAM WORK?

ZTechnik revolutionized windscreen performance with their VStream® windscreens. They are well known not only for superior wind-deflecting comfort but also for a riding environment that is calm and quiet. In order to create a more comfortable ride, other manufacturers offer extra-tall windscreens or spoiler tops to try to lift the air stream. But ZTechnik designed, for the first time ever, a windscreen with contours calculated and adjusted to manage the riding environment.

QUIET

The airflow pattern of the wake from most windscreens is called a *van Karman vortex*. At speeds of 50-90 mph, the air swirls off the windshield in an approximate 90-degree rotational vortex. It then hits the bottom of the rider's neck on the way up, and curves off the shoulders at approximately 45 degrees. The VStream is named for its unique patented "V" shape. This design **quiets the ride** because it pushes that vortex out and away from the side of the rider's head, reducing irritating wind noise.

COMFORT

The VStream's advanced "V" profile, unique three-dimensional contours, and smooth radiused edges all contribute to **calmness and comfort** in the riding environment. Unsettling wind turbulence is effectively pushed aside, and this fatigue-reducing experience is greatly appreciated by the rider and passenger. Many satisfied customers claim the VStream is definitely the most comfortable windscreen they've owned.

DURABILITY AND OPTICAL CLARITY

In addition, VStream windscreens have an outstanding level of **durability and optical clarity** that is the result of over 73 years of windscreen manufacturing and advanced technology in forming and coating. Experience the VStream windscreens and see why they are **the most comfortable windscreen you can ride behind** on a BMW® motorcycle.

STATE-OF-THE-ART VSTREAM+® WINDSCREENS

WHAT IS VSTREAM+?

VStream+ windscreens are special **bracket mounted screens utilizing custom designed, highly engineered and perfectly manufactured mount systems**. Some models come from the factory with no provision for mounting a windscreen, while others will accommodate only very small screens that have little effective wind protection value.

ZTechnik believes that if a rider wants a touring windscreen for his or her bike, there should be nothing standing in the way.

VStream+ mounting brackets, included with the windscreen, are a custom fit for each model bike. They're easy to install, require no modifications to existing components, and add strength and rigidity to the windscreen mounting points.

"I finally got a chance to check out the new **Z2413 VStream® Windscreen** on my G650GS. It replaced an 18" Cee Bailey® windscreen. I'm 5'5" tall and the improvement was really noticeable. The air turbulence on my chest disappeared. Also, now there is no airflow pushing on my helmet (front or sides). The ride was more relaxing and much quieter, especially at freeway speeds. With the Z2413 Windscreen, the BMW® hand guards, and my homemade hand guard extenders (this might be a new product for ZTechnik), the only air that I felt was on my arms between the elbows and shoulders. Riding at 65mph+ is definitely more enjoyable now.

"Thanks for your help."

~ Lee M.

"I rode my F800GS home last night in the cold wet weather with your VStream® Windscreen. The ride into work this morning was as enjoyable as last night. That screen rocks!"

~ Gina

NEW

Extreme Adventure Gear™ F900R/XR Side Guards

EXTREME
ADVENTURE GEAR

F SERIES R/XR

Z7108-002

ZTechnik's Extreme Adventure Gear™ Side Guards are carefully designed for easy installation and thoughtful fitment to the bike.

Integrated brackets on each side allow you to mount aftermarket accessory lights, video cameras or whatever you can imagine.

Extreme Adventure Gear

Z7108-002 Powdercoated Steel Side Guards

Fits 2020-22 F900R and F900XR.

ZTechnik's new line of Extreme Adventure Gear provides the best in rugged, superbly designed accessories for adventure bike owners, whether riding far off the beaten path or just commuting and touring the tarmac.

The Z7108-002 Adventure Side Guards for the new F900 models are made from durable E-Coated and powdercoated one-inch steel tubing and can stand up to the most extreme abuse. These Adventure Side Guards attach to the bike's motor mounts, making them as strong as they can possibly be.

The E-Coat (Electrophoretic Coating) is applied inside and out to eliminate rust and corrosion, making the finish tough and long lasting.

Designed for off-road protection, they also offer options for mounting supplemental lighting, adventure luggage, or a video camera. Plus, they look really great!

Complete installation, with the proper tools, can be accomplished in 30-45 minutes.

VStream Windscreens

Z2386 VStream Sport Windscreen

Z2387 VStream Sport Touring Windscreen

Z2388 VStream Touring Windscreen

Fits 2020-22 F900XR.

The groundbreaking F900XR is here and ZTechnik is ready with three new VStream® Windscreens that will withstand years of rugged use. The windscreens are made in three different sizes and tints to satisfy almost any rider's needs. All will offer improved wind protection and riding comfort compared to OEM or other aftermarket windscreens.

These windscreens are made from tough 3.0mm Quantum® hardcoated polycarbonate. This high quality material, along with state-of-the-art manufacturing techniques, provides outstanding clarity, impact strength and scratch resistance unmatched by any windscreen maker worldwide.

Quantum hardcoated polycarbonate is the material of choice for serious motorcycle riders. It is 10X more abrasion resistant than FMR hardcoated polycarbonate, and 30X more than windscreens made from commonly used acrylic or "aircraft plastic".

Like all ZTechnik polycarbonate windscreens, they're covered by an exclusive 3-Year Warranty against breakage.

Compared to the small OEM wind deflector, these VStream windscreens offer significantly more coverage and wind protection, and will be a superior performer on long tours and in cold weather.

The strong, laser-cut steel brackets offer solid four-point mounting for increased stability of larger windscreens ridden at highway speeds. Now the F900R can be a viable long-range touring bike.

VStream+ Windscreens

- Z2389** VStream+ Sport Windscreen
- Z2390** VStream+ Sport Touring Windscreen
- Z2391** VStream+ Touring Windscreen

Fits 2020-22 F900R.

Bigger, better, faster – what's not to like? But newfound power comes with a surprising amount of windblast, so it makes sense to add a VStream Windscreen to make the ride more enjoyable. Three different sizes and tints ensure a perfect windscreen for almost every rider.

The "+" means these windscreens include a specially designed mounting bracket that's engineered specifically for this model.

These windscreens are made from tough 4.5mm Quantum® hardcoated polycarbonate. They have outstanding clarity, impact strength and scratch resistance unmatched by any windscreen maker worldwide.

Quantum hardcoated polycarbonate is the material of choice for serious motorcycle riders. It is 10X more abrasion resistant than FMR hardcoated polycarbonate, and 30X more than windscreens made from commonly used acrylic or "aircraft plastic".

F SERIES GS

Z2376

Z2377

VStream Windscreens

Z2376 VStream Sport Windscreen

Z2377 VStream Sport Windscreen

Fits 2019-22 F850GS, F850GS Adventure.

The Z2376 and Z2377 are aggressive-looking adventure sport screens, and give the F850GS rider good wind protection without sacrificing the bike's cutting edge appearance.

State-of-the-art 4.5mm Quantum® hardcoated polycarbonate gives this VStream windscreen outstanding clarity and strength characteristics unmatched by any windshield maker worldwide.

This exclusive combination of Quantum and polycarbonate is 30X more scratch-resistant than acrylic materials, has better UV life, chemical resistance, and optical definition, and has superior crack and impact resistance.

Like all ZTechnik polycarbonate windscreens, they're covered by an exclusive 3-Year Warranty against breakage.

NOTE: Z5304 Mirror Extenders are required to mount these windscreens on the 2019 F850GS.

Z5304 Mirror Extenders offset the mirrors for a wider view and allow full forklock clearance when larger windscreens are installed.

VStream® Windscreens for 2008-18 F800GS/F650GS Twin

WINDSCREENS
AND ACCESSORIES

F SERIES GS

Z2490

Z2490

VStream Windscreens

Z2490 VStream Sport Windscreen

Fits 2008-18 F800GS, 2008-12 F650GS Twin.

Add an aggressive, sporty appearance to your new F800GS and F650GS Twin with this compact VStream sport screen. It features a strong, rigid lower contour that uses the headlight as an additional mount point while retaining complete headlight adjustability.

Full side-to-side steering lock is maintained as well. The Dark Tint really accents the bike's black bodywork.

Like all ZTechnik polycarbonate windscreens, they're covered by an exclusive 3-Year Warranty against breakage.

NOTE: Z5301 Mirror Extenders are required to mount these windscreens on the 2008-17 F800GS and 2008-12 F650GS Twin.

The Z2490 maintains full side-to-side steering lock.

The unique, well-designed contours of this VStream Windscreen reduce wind turbulence and buffeting.

F SERIES GS

The lower contours add strength and rigidity.

These VStream Windscreens use the headlight as an additional mounting point while maintaining complete headlight adjustability.

VStream Windscreens

Z2491 VStream Touring Windscreen

Z2492 VStream Tall Touring Windscreen

Z2493 VStream Extra Tall Touring Windscreen

Fits 2008-18 F800GS, 2008-12 F650GS Twin.

These touring versions of the F800GS and F650GS VStream Windscreens come in three different heights to fit riders of any size. All are made from rugged 4.5mm polycarbonate with Quantum® hardcoating. And, they offer more features for better value:

- Special 8-point mounting system uses headlight mounts but retains complete headlight adjustability.
- Windscreen contours reduce turbulence and buffeting, while the lower contour design adds strength/rigidity.
- Precision cut with smooth radiused edges and crystal clear optics. Full steering lock is maintained.

Like all ZTechnik polycarbonate windscreens, they're covered by an exclusive 3-Year Warranty against breakage.

NOTE: Z5301 Mirror Extenders are required to mount these windscreens on the 2008-17 F800GS and 2008-12 F650GS Twin.

VStream® Windscreens for 2013-18 F700GS

WINDSCREENS
AND ACCESSORIES

F SERIES GS

VStream Windscreens

Z2473 VStream Sport Windscreen

Z2479 VStream Sport Windscreen

Fits 2013-18 F700GS.

F700GS owners looking for a smaller shield for warm weather riding will appreciate ZTechnik's Z2473 Dark Tint and Z2479 Clear Sport Windscreens. These windscreens are considerably taller than the stock screen and are shaped in the VStream contour like our larger touring screens, Z2474 and Z2475 (featured on the next page) but does not include the side deflectors. The Sport Windscreen quickly mounts to the motorcycle in the stock location.

All ZTechnik polycarbonate windscreens are backed by an exclusive 3-Year Warranty against breakage.

Shorter F700GS riders will appreciate the Z2473 and Z2479 Sport Windscreen. This screen has the VStream contour of the larger touring screens, but does not include the side deflectors. It utilizes the stock mounting points.

VStream+® Windscreens for 2013-18 F700GS

WINDSCREENS
AND ACCESSORIES

F SERIES GS

Side Deflectors
Detail

Z2475

The structural side deflectors not only support a taller, touring-sized windscreen, they also help reduce updrafts.

VStream Windscreens

Z2474 VStream+ Touring Windscreen

Z2475 VStream+ Tall Touring Windscreen

Fits 2013-18 F700GS.

Realizing that the small mounting area of the stock screen would not support a touring-size windscreen, ZTechnik's engineers solved the problem with a three-piece windscreen design. This brilliant solution adds windscreen side deflectors as structural mounts, giving this windscreen eight solid mounting points instead of the original four.

The result is phenomenal – a stable windscreen on the highway with the best wind management offered on a BMW GS twin. A pocket of calm air for the rider's torso is created by the structural side deflectors, and the patented VStream design reduces helmet buffeting to a minimum.

All ZTechnik polycarbonate windscreens are backed by an exclusive 3-Year Warranty against breakage.

WINDSCREENS
AND ACCESSORIES

F SERIES GS

Z2412

Z2413

VStream Windscreens

Z2412 VStream Sport Touring Windscreen

Z2413 VStream Touring Windscreen

Fits 2005-07 F650GS and F650GS Dakar.

VStream comfort, performance and durability are now available for the F650GS rider! Compared to the OEM windscreen, the Z2412 measures 2.80" taller and 1.00" wider, and the Z2413 measures 5.00" taller and 4.50" wider. That's a big improvement!

These ZTechnik VStream windscreens use the bike's existing windscreen mount points, and are compatible with the OEM handguards.

Made from 4.5mm thick Quantum® hardcoated polycarbonate for unbeatable scratch resistance with unmatched strength and durability.

Like all ZTechnik polycarbonate windscreens, they're covered by an exclusive 3-Year Warranty against breakage.

NOTE: Z5302 Mirror Extenders are required to mount the Z2413 windscreen to this model.

Z2413

Compared to the OEM accessory touring windscreen, the ZTechnik Z2413 offers significantly more coverage and wind protection, and will be a superior performer on long tours and in cold weather.

Z2261

Sport Touring Windscreens

Z2261 Sport Touring Windscreen

Fits 2001-03 F650CS.

The Z2261 is taller and wider than the OEM screen, with a more upright angle and innovative shape for smooth airflow and reduced wind noise and buffeting.

The Z2261 mounts in minutes using existing mounting hardware.

Made from Quantum® hardcoated polycarbonate for unbeatable scratch resistance with unmatched strength and durability.

Like all ZTechnik polycarbonate windscreens, it's covered by an exclusive 3-Year Warranty against breakage.

The Z2261 for the 2001-03 F650CS offers a big improvement in wind protection compared to the OEM windscreen.

Specifications and Materials

VStream+® Windscreens for 2010-13 F800R

WINDSCREENS
AND ACCESSORIES

F SERIES R

Z2426

*Impossible clearances are
made possible... by ZTechnik!*

Strong, 3-gauge (.25"/.6cm) compact laser-cut brackets are cleverly designed to clear all the bike's cables and hoses, and are easy to install without removing any of the bike's stock parts – something only ZTechnik could accomplish!

Sturdy 6-point windscreen mounting provides stability and rigidity when riding.

Heavy rubber grommets absorb vibrations.

VStream Windscreens

Z2426 VStream+ Touring Windscreen

Fits 2010-13 F800R.

ZTechnik® brings VStream® Windscreen performance to the F800R!

The touring size Z2426 deflects the wind blast at high speeds away from the upper body for riders up to 5'10" (178cm) tall.

Tough 4.5mm FMR coated polycarbonate gives these VStream wind-screens outstanding clarity and strength characteristics unmatched by any windscreen maker worldwide. They are 3X more resistant to abrasion than acrylic materials, and have 20X greater crack and impact resistance.

Covered by ZTechnik's 3-Year Warranty against breakage! (Register your ZTechnik VStream windscreen purchase at www.ztechnik.com to qualify for this warranty.)

Specifications and Materials

Z2426
H: 19.00" (48.3cm)
W: 17.00" (43.2cm)
Color: Clear

4.5mm Polycarbonate with FMR Hardcoating;
ZTechnik 3-Year Warranty Against Breakage;
Uses Existing Hardware; DOT/ABE Approved

VStream® Windscreens for 2013-17 F800GT

WINDSCREENS
AND ACCESSORIES

F SERIES GT

VStream Windscreens

Z2476 VStream Sport Windscreen

Z2477 VStream Sport Touring Windscreen

Z2478 VStream Touring Windscreen

Fits 2013-17 F800GT.

The tractable motor, great luggage options, and light weight make the F800GT an ideal sport touring bike, but the wind protection needed improvement. ZTechnik's engineers designed a range of VStream windscreens using the stock mounting hardware along with additional mounting hardware to ensure secure attachment.

Three different sizes are available to fit a variety of riders, all of them featuring the patented VStream design. This aeroacoustic design helps push wind to the side and reduces helmet buffeting to a minimum, resulting in a quiet, more comfortable ride.

Specifications and Materials

F SERIES S/ST

Z2431

ZTechnik's Z2431 Offers a significant improvement in wind protection performance compared to the stock windscreens.

VStream Windscreens

Z2431 VStream Touring Windscreen

Fits 2006-11 F800S, 2006-12 F800ST.

The Z2431 VStream adds more wind protection and a quieter ride to the sporty F800S and F800ST. Its Quantum® hardcoated polycarbonate is 20X more impact resistant than acrylic (aircraft plastic) windscreen.

This is a screen you'll really appreciate for long distance touring or riding in cold weather.

Like all ZTechnik polycarbonate windscreens, it's covered by an exclusive 3-Year Warranty against breakage.

Specifications and Materials

G SERIES GS

VStream Windscreens

Z2360 VStream Sport Windscreen

Z2361 VStream Sport Touring Windscreen

Z2362 VStream Touring Windscreen

Fits 2017-22 G310GS.

VStream comfort, performance and durability are now available for riders of the new G310GS! Compared to the tiny OEM windscreen, these windscreens offer true big-bike wind protection!

These ZTechnik VStream windscreens use the bike's existing windscreen mount points, and installation is a five-minute affair.

Made from 4.5mm thick Quantum® hardcoated polycarbonate for unbeatable scratch resistance with unmatched strength and durability.

Like all ZTechnik polycarbonate windscreens, they're covered by an exclusive 3-Year Warranty against breakage.

Compared to the small OEM wind deflector, these VStream windscreens offer significantly more coverage and wind protection, and will be a superior performer on long tours and in cold weather.

Specifications and Materials

	Z2360 H: 14.25" (36.1cm) W: 13.25" (33.6cm) Color: Dark Tint	Z2361 H: 16.88" (42.8cm) W: 14.00" (35.5cm) Color: Light Tint	Z2362 H: 19.38" (49.2cm) W: 14.75" (37.4cm) Color: Clear

Z2413

Z2413

Compared to the OEM accessory touring windscreen, the ZTechnik Z2413 offers significantly more coverage and wind protection, and will be a superior performer on long tours and in cold weather.

VStream Windscreens

Z2412 VStream Sport Touring Windscreen

Z2413 VStream Touring Windscreen

Fits 2009-10 G650GS.

VStream comfort, performance and durability are now available for the G650GS rider! Compared to the OEM windscreen, the Z2412 measures 2.80" taller and 1.00" wider, and the Z2413 measures 5.00" taller and 4.50" wider. That's a big improvement!

These ZTechnik VStream windscreens use the bike's existing windscreen mount points, and are compatible with the OEM handguards.

Made from 4.5mm thick Quantum® hardcoated polycarbonate for unbeatable scratch resistance with unmatched strength and durability.

Like all ZTechnik polycarbonate windscreens, they're covered by an exclusive 3-Year Warranty against breakage.

NOTE: Z5302 Mirror Extenders are required to mount the Z2413 windscreen to this model.

Windscreen Accessories

ZTechnik Headlight Guards

WINDSCREENS
AND ACCESSORIES

F SERIES GS

Z5210

Headlight Guard

Z5410 Polycarbonate Headlight Guard

Fits 2008-17 F800GS, 2009-13 F800R, 2013-17 F700GS, 2008-12 F650GS Twin.

ZTechnik Headlight Guards perfectly match the contours of your bike's headlight. They're thermoformed to wrap around the headlight frame cover, where they are attached using marine-grade Velcro®. No Velcro on the headlight lens! Crystal clear optics will not distort or reduce the light beam. These Headlight Guards virtually disappear when installed!

Formed from tough 3mm polycarbonate with ZTechnik's exclusive Quantum® hardcoating for 10X more strength and 30X more scratch resistance than fragile acrylic guards. Protect your headlight with a hardcoated polycarbonate Headlight Guard from ZTechnik.

Just like ZTechnik's polycarbonate windscreens, they're covered by an exclusive 3-Year Warranty against breakage.

Why trust your expensive headlight assembly to anything less?

Z5410

The Velcro® mounting for our Headlight Guards is practically invisible when installed!

Specifications and Materials

3.0mm Polycarbonate with Quantum Hardcoating;
ZTechnik 3-Year Warranty Against Breakage;
All Hardware Included; DOT Approved/ABE Pending

Quantum is 10X more scratch resistant than FMR coating and 30X more scratch resistant than typical acrylic.

Which would you rather have?

Z5301 Mirror Extenders; Pair

Fits 2008-18 F800GS, 2013-18 F700GS, 2008-12 F650GS Twin.

Z5302 Mirror Extenders; Pair

Fits 2005-07 F650 GS/Dakar and 2009-10 G650GS

Z5304 Mirror Extenders; Pair

Fits 2019-22 F850GS

Give yourself a better view of the road and the vehicles behind you!

ZTechnik's Mirror Extenders move your bike's mirrors out an additional 2.0-2.5 inches (52-64mm) on each side, depending on model. Competitive extenders only add 1.5 inches (less than 35mm) on each side.

ZTechnik Mirror Extenders allow you to see more easily past your shoulders, your passenger and your gear. They also move the mirror stalks further out when using a wider than stock windscreen like a ZTechnik VStream®.

This is a great 5-minute do-it-yourself upgrade that you'll appreciate!

N1401-01 Shield Wash™ Windscreen Cleaner

For All Motorcycle Windscreens and Faceshields.

After extensive road testing and research, we hit on the right combination of cloth and chemical that will keep the rider's windscreen as clean as possible while on the road.

Our Shield Wash™ is made to create that low surface tension that is the key to keeping a windscreen clean. Just as important is the cloth. The cleaning cloth we use is soft, but it lifts and holds dirt. It provides just the right amount of absorbency as well.

Watch the online demonstration video and learn how to use National Cycle's Shield Wash™ and RainZip® on motorcycle windscreens, and then see an actual demonstration of how well it works!

<https://www.youtube.com/user/natcyc>

Materials and Specifications

The Shield Wash cleaning kit includes an eight-ounce bottle of Shield Wash and a one-ounce refillable bottle with a small microfiber cloth to carry on the motorcycle.

RainZip is available in a 3-oz. size with a special application cloth – enough for three applications. One application will last 3-4 months.

Windscreen Accessories

N1410-01 RainZip® Rain Repellent Treatment

For All Motorcycle Windscreens and Faceshields.

To keep your windscreen clearer in rainy weather, National Cycle and ZTechnik developed RainZip®, a specially formulated rain repellent treatment that is safe to use on any Quantum® or FMR hardcoated Windscreen. And, it's safe to use on ANY motorcycle windscreen, as well as helmet faceshields and goggles.

RainZip is hydrophobic – when rain accumulates on the windscreen, RainZip causes it to effectively bead up and blow away, even at riding speeds of only 20-30MPH.

Materials and Specifications

The Shield Wash cleaning kit includes an eight-ounce bottle of Shield Wash and a one-ounce refillable bottle with a small microfiber cloth to carry on the motorcycle.

RainZip is available in a 3-oz. size with a special application cloth – enough for three applications. One application will last 3-4 months.

MULTI-FIT

Genuine Carbon Fiber Fuel Cap Trim, Tank Protectors

Z8891

Z8892

All ZTechnik Genuine Carbon Fiber accessories are designed on each individual motorcycle model. This guarantees a perfect and precise fit with contours and edges that compliment the design of the motorcycle's bodywork.

ZTechnik Genuine Carbon Fiber accessories are made to stand up to years of use. They will not delaminate like cheaper imitations, nor will they fade and bleach out like faux carbon fiber material.

Like all other ZTechnik Accessories for BMW® Motorcycles, they're made to the highest quality standards – our own.

Genuine Carbon Fiber Trim

Z8891 Carbon Fiber Fuel Cap Trim

Fits a range of BMW models with concealed fuel trim ring fasteners. Protects the fuel trim ring and cap from key and fuel pump damage.

Z8892 Carbon Fiber Fuel Cap Trim

Fits a range of later model BMW motorcycles with exposed fuel trim ring and torx fasteners.

APPEARANCE
AND TRIM

MULTI-FIT

Z8500 Carbon Fiber Tank Protector

Fits F800GT, F800R, F800S and F800ST models, as well as 2001-07 F650GS models.

Z8502 Carbon Fiber Tank Protector

Fits a wide range of models. The compact size will not interfere with most tank bag mounts.

Z8506 Carbon Fiber Tank Protector

Fits 2008-16 F800GS, 2013-17 F700GS and 2008-12 F650GS Twin models.

Laminate Construction of Genuine Carbon Fiber

High quality, genuine woven carbon fiber material is first cut to shape with a precision die.

Next, a clear resin is carefully applied so that the entire perimeter has a smooth, radiused edge, producing a fluid transition to the contact surface of the motorcycle at all points.

A pressure sensitive adhesive backing is applied that securely, but safely, attaches the carbon fiber piece to the motorcycle.

ZTechnik® Great Ideas for All BMW® Motorcycles

Slip the D-ring behind the lock bar and push the lock shut. Simply use your key to unlock the helmets when it's time to go.

Touring, Comfort, and Convenience

Z5505A License Plate Bracket Helmet Locks

Fits All USA, Canadian and Australian Models.

Z5506 License Plate Bracket Helmet Locks

Fits All Japanese Models.

The ZTechnik Helmet Lock for BMW motorcycles uses the easily accessible license plate bracket to provide leave-behind security for two full-face helmets. A sturdy push-lock mechanism accepts D-ring or similar helmet closures.

The Helmet Lock is made from high strength steel with black powdercoat, and is furnished with two matched keys.

Note: Because the state of Wisconsin does not comply with SAE license plate standards, fitment of Wisconsin plates to the Z5505A is marginal. Wisconsin plates may be mounted, however only the top two holes will match the plates.

Materials and Specifications

High Strength Steel with Black Epoxy Powdercoat;
Uses Existing License Plate Hardware and Fasteners;
Height: 6.50" (16.5cm); Width: 6.75" (17.1cm)

ZTechnik was formed in 2000 to provide BMW riders with windscreens and accessories of OEM quality. Over the years, the ZTechnik brand has gained worldwide recognition, and our mission remains the same.

ZTechnik products are designed, engineered and manufactured by National Cycle, Inc. in the U.S.A. Our windscreen line is the finest you can buy. We start with the best materials and incorporate our state-of-the-art manufacturing technology. Each product is engineered directly on the bike for an OEM-quality fit and finish.

At ZTechnik, we think about every product from the rider's perspective. We measure the value of any accessory by how it increases the rider's enjoyment and whether it gives him or her more confidence and ability on the road.

ZTechnik is releasing new products almost every month of the year! This new catalogue provides up-to-date information for riders worldwide.

We get constant feedback from dealers and customers for new products and features. The ZTechnik Engineering and Production Teams are working hard to bring these to you and your customers!

Thank you for your support, and good riding!
