

NATIONAL CYCLE PRODUCTS FOR INDIAN® SCOUT MOTORCYCLES

SWITCHBLADE® QUICK RELEASE WINDSHIELDS WITH QUANTUM® HARDCOATED POLYCARBONATE

The largest of the four shields, the **SwitchBlade® 2-Up®** offers maximum protection from the wind and weather for you and your riding partner. The 2-Up gives your Scout serious touring bike performance at a fraction of the price of the upscale machines.

The **SwitchBlade® Chopped™** is a cut-down version of the popular 2-Up. The recontoured top is 4.8" shorter and the trimmed bottom profile is narrower. Get all the protection you need with the slick looks you want!

The smaller screen of the **SwitchBlade® Shorty®** is an ideal choice for a rider who generally does not put long hours in the saddle. Short in size but long on looks and quality features, the Shorty keeps wind blast at bay while preserving the "wind in your face" motorcycling experience.

Designed for maximum attitude, the minimal profile of the **SwitchBlade® Deflector™** is a stylish addition to your Scout. National Cycle's RakeAdjust™ feature allows you to quickly and easily change the screen angle, transforming the SwitchBlade Deflector from a boulevard cruiser to a functional bug buster – or anywhere in between.

Superior Scratch Resistance!

30X more scratch resistance than typical acrylic windshields is saying a lot! Think of it as 30X more miles per windshield. Even compared to FMR coated polycarbonate, Quantum has **10X better scratch resistance**. That's the kind of performance and strength you need from a motorcycle windshield!

Windshield Measurements

Height is measured from headlight cutout to top of the shield. Width is measured in a straight line across the back of the shield at its widest point.

SWITCHBLADE® QUICK RELEASE MOUNT KIT

One Mount Kit... Any Quick Release Windshield!

The SwitchBlade® Quick Release Mounting System gives you the flexibility to mount any of four styles of SwitchBlade Windshields – or Spartan® or WaveQR® – to the Indian® Scout with ONE Mount Kit.

On and Off in Less Than Five Seconds... Without Tools!

This fork-mount hardware system secures your windshield with bulldog tenacity but looks attractive when the shield is off. Innovative stainless steel cushion wheel spools turn and flex, allowing the shield to lock into place with a reassuring "pop".

SPARTAN® QUICK RELEASE WINDSHIELDS WITH QUANTUM® HARDCOATED POLYCARBONATE

You won't find a better quality touring-sized windshield at such a great price! The **Spartan® Windshield** has a stainless steel frame finished in a stealthy black powdercoat and looks perfect on the Scout.

This full-size **Quantum® hardcoated polycarbonate** windshield comes in two heights and mounts to our tried-and-true **SwitchBlade® Quick Release Mount Kit**, the same kit that mounts our **SwitchBlade®** and **Wave QR®**.

Superior Scratch Resistance!

30X more scratch resistance than typical acrylic windshields is saying a lot! Think of it as 30X more miles per windshield. Even compared to FMR coated polycarbonate, Quantum has **10X better scratch resistance**. That's the kind of performance and strength you need from a motorcycle windshield!

WAVE QR® QUICK RELEASE FAIRINGS WITH RAKE ADJUST™

Have the hottest looking bike around with the **Wave QR®** – the fairing that defines performance on the edge. Whether it's slammed back or raked forward, the Wave QR's sculpted body captures the free spirit of your Scout motorcycle.

The Wave QR® Fairing is made from **FMR hardcoated polycarbonate**, the same tough, durable material we introduced to the motorcycle industry in 1975. Ride it fast and ride it hard – it can take the abuse!

The Wave QR® is a quick release fairing... it's removable in just seconds, without tools, thanks to National Cycle's **SwitchBlade® Quick Release Mount Kit**.

And, it's rake adjustable for custom-tuned performance and the looks you want!

Heavy Duty**

**Low Boy
Heavy Duty**

**Ranger
Heavy Duty**

HEAVY DUTY™ WINDSHIELDS WITH QUANTUM® HARDCOATED POLYCARBONATE

These **Heavy Duty™ Windshields** feature the same quality materials and construction as the SwitchBlade® and Spartan® Windshields, but use a fixed fork mount kit rather than a quick release kit.

The **Custom Heavy Duty™** is one of our most popular windshields and offers plenty of height with a slim profile for riders who want long distance touring comfort.

The **Low Boy Heavy Duty™** is the cut down version of the Custom. It is the perfect choice for riders sitting low in the saddle or for the rider who likes a low screen.

The **Ranger Heavy Duty™** cuts the slim profile to its limits for the rider who wants just a small shield. The Ranger has a performance-oriented drag-style look.

Superior Scratch Resistance!

30X more scratch resistance than typical acrylic windshields is saying a lot! Think of it as 30X more miles per windshield. Even compared to FMR coated polycarbonate, Quantum has **10X better scratch resistance**. That's the kind of performance and strength you need from a motorcycle windshield!

Windshield Measurements

Height is measured from headlight cutout to top of shield. Width is measured in a straight line across the back of the shield at its widest point.

Heavy Duty Windshields have an adjustable lower window, so the headlight cutout varies depending on individual rider adjustments.

	Height	Width

NATIONAL CYCLE HAND DEFLECTORS

National Cycle **Hand Deflectors** are an easy-to-install, economical solution for keeping your hands warm and dry. Coupled with a windshield, Hand Deflectors protect your entire upper body from cold wind and rain. They also make heated grips work more effectively.

Hand Deflectors mount easily and securely to the Scout's mirror mounts, yet allow plenty of room for lever movement when wearing heavy gloves. They make a windshield function more like a fairing.

NEW! Deflector Screen™

Street Shield™ **NEW!**

INTRODUCING THE NEW DEFLECTOR SCREEN™ AND STREET SHIELD™ WITH QUANTUM® HARDCOATED POLYCARBONATE

Our original 2-point QuickSet™ mount Deflector Screen™ was first introduced in 1980 and became an instant hit with riders everywhere. It defined the term “universal windshield.” We then followed up with the Street Shield™, a larger screen with a 4-point QuickSet mounting system.

Now there's a better reason to stock these popular windshields for your customers: They've been upgraded from High Impact Acrylic to National Cycle's exclusive Quantum® hardcoated polycarbonate – the state-of-the-art in scratch resistance – but with no price increase!

NATIONAL CYCLE DEFLECTOR SCREEN™

Our Deflector Screen™ is the most copied windshield worldwide. But only ours offers the no-tool **Rake Adjust™** hardware. This simple rake angle adjustment feature has made this small windshield popular among motorcyclists everywhere.

The **N25030** Deflector Screen attaches to the handlebars with our U-Clamp and Eyebolt system. The **N25042** Deflector Screen attaches to the handlebars with our QuickSet™ system for easy on-and-off convenience. Both mount kits fit 1.00" (25mm) handlebars.

NATIONAL CYCLE STREET SHIELD™

Our Street Shield™ is a great choice for riders who need more wind protection than our Deflector Screen offers. Its **No-Hole Ballsocket™** mounts provide a good range of adjustment, and the shallow headlight cutout fits the Scout perfectly.

The Street Shield features a solid 4-point mount that attaches to the handlebars and upper fork tubes. The **N25000** attaches to the handlebars with our U-clamp and Eyebolt system, while the **N25012** attaches to the handlebars with our QuickSet™ system for easy on-and-off convenience. Both mount kits fit 1.00" (25mm) handlebars.

NATIONAL CYCLE PRODUCTS FOR INDIAN® SCOUT MOTORCYCLES

NATIONAL CYCLE FLYSCREEN®

Add some real sizzle to your Scout! National Cycle's **Flyscreen®** will give your Scout a dragster look – whether you're headed for the quarter-mile strip or the local boulevard.

The clean appearance is accented with a chrome front trim plate. A quality fork-mount system with countersunk screws offers an adjustable custom fit.

Available in Light Tint High Impact Acrylic or Dark Tint FMR Hardcoated Polycarbonate. All mounting hardware is included.

NATIONAL CYCLE CAST FENDER TIPS

Create the perfect fender treatment for your Indian® Scout! The new Scout deserved a unique fender tip design – different from our traditional styles – so that's what we gave it.

These **Cast Fender Tips** are easy to install and come with countersunk outside screws (requires drilling) for the cleanest possible appearance.

This hallmark product of National Cycle has been painstakingly refined for modern cruisers. By casting the product, the shape and high crown details that distinguish these tips really stand out. These are not ordinary fender tips. They have a show bike polish with a jewel-quality chrome finish.

NATIONAL CYCLE PRODUCTS FOR INDIAN® SCOUT MOTORCYCLES

PALADIN® QUICKSET™ MOUNT KIT, BACKREST AND LUGGAGE RACK

Convert your Scout from solo boulevard cruiser to 2-up tourer in under 5 seconds, with no tools!

National Cycle's **Paladin® QuickSet™ Mount Kit** uses an innovative, key-lockable mounting system that's designed for an optimal fit on each specific make and model. All moving components are made from stainless steel for years of reliable, smooth operation, and all visible metal components are either stainless steel or finished in bright, show-quality chrome.

After unlocking, just lift the levers on the bottom of the backrest side plates and pull up on the backrest to remove it. Now that's easy!

FENDER-MOUNT SOLO LUGGAGE RACK

The solo Scout rider gets something special that we've never done before – a cool fender-mounted **Solo Luggage Rack** that looks like it's fresh off of a 1942 Indian Sport Scout.

Simply remove the passenger pillion and use the same OEM hardware to mount the rack. It's a quick and simple job that pays back big style points – as well as added luggage carrying capacity.

CRUISELINER™ MOUNT KIT AND QUICK RELEASE HARD SADDLEBAGS

Every Scout deserves a great pair of lockable, quick-release, hard saddlebags – like our popular **Cruiseline™ Saddlebags**! To give Scout riders this option, we designed and engineered a special **Saddlebag Mount Kit** just for the Scout.

Cruiseline saddlebags open easily with a “thumb push” lock that flips the lid forward for easy access to items. The interior walls, lid, and seal are designed to keep the contents safe and dry. One key locks both saddlebag lids securely.

Quick-detach quarter-turn fasteners are located securely inside the bag for “no-tool” quick removal of the saddlebags from the frames.

Cruiseline Saddlebags are molded from an extremely durable polymer blend and are pre-painted gloss black.

CRUISELINER™ INNER DUFFEL BAGS

One of the most practical accessories you can add to your Scout is a set of Cruiseline™ Saddlebags. Now practicality gets practically perfect with our N1350 **Inner Duffels for Cruiseline Saddlebags**.

The inner duffel is stitched to shape so it fits easily into the compartment of the hard bags. The generous size conforms to the inside cavity with room to spare.

This well-constructed duffel is made from 600 denier polyester with a waterproof coating. A two-way zipper allows easy access in and out of the bag.

These features, along with the sturdy nylon web handles, make it easy to remove and carry your cargo without removing the saddlebags from the bike.
