Figure 11

INSTALLATION Install Windshield

1. Install one Plastic Washer (5) over each threaded mount stud. **Figure 8**
2. Install Windshield over mount studs.

2. Remove backing paper from a Poron Washer (6). Install one Washer over each mount hole. **Figure 9**

3. Use the OEM bolt and washer assembly to secure Windshield to scooter. Repeat procedure at all four holes. Tighten Screws firmly. **Do not overtighten. (10mm Box Wrench)** **Figure 10**

4. Re-assemble grill to scooter. Press down on the metal tab to allow cowl tab to slide in on top. **Figure 11**

5. Re-install OEM tap screws (C). **Figure 12**

Figure 12

MAINTENANCE

To clean the screen, wash with a clean soft cloth, plenty of warm water and if necessary, a non-abrasive soap such as dishwashing liquid. Flannel or soft chamois make good cleaning cloths.

Paint, glue residue or grease removal: Moisten cotton with Naphtha or Turpentine followed by a wash as above. National Cycle **Shield Wash™** makes a good daily cleaner and comes with a handy travel size bottle. N1401 Shield Wash is safe for all windshields and helmet visors.

Do not clean polycarbonate in hot sun or high temperatures. Do not clean the screen with glass cleaners.

Do not allow brake fluid, alcohol, or strong solvents to contact the screen.

RAIN REPELLENT

Do not use rain protective products made for glass. We recommend National Cycle's **RainZip®** which is safe for all windshields and faceshields. (Part No. N1410).

⚠ WARNING

Never ride your scooter with loose accessory mounting hardware. Check the hardware for tightness regularly.

Today's scooters are built with enough frame rigidity to withstand the moderate loads imposed on them by the foreseeable addition of an accessory(ies). If an accessory(ies) adversely affects your scooter's stability, immediately remove the accessory(ies). Do not ride a scooter that exhibits unsafe handling traits.

Have experienced service personnel correct any problem before riding with the accessory(ies) installed. For further questions concerning handling problems associated with an accessory(ies), contact your dealer, scooter manufacturer, or accessory manufacturer.

Sunlight reflected off the inside curvature of the windscreen can, at certain times of day, cause extreme heat buildup on the scooters instruments and possibly even melt them. Exercise care in parking to avoid this. Park your scooter facing the sun or place an opaque object over this area.

National Cycle 3-Year Limited Warranty

Register your windshield on Line at: www.nationalcycle.com/register.html

or contact Customer Service at National Cycle, Inc. / PO Box 158 / Maywood, IL 60153 / USA
708/343/0400

National Cycle hereby warrants to the original registered owner of a National Cycle polycarbonate windshield for a period of three years from the date of purchase against breakage. This limited warranty is expressly limited to the replacement of the polycarbonate windscreen. This limited warranty does not include scratches, coating failure, cosmetic wear and tear, replacement of hardware, or any consequential damages or expenses including labor cost of installation, removal and/or replacement, inconvenience, inbound freight expenses or damage to any other component of the motorcycle or any other accessories. Certain chemicals, generally known as acidic hydrocarbons, are known to cause polycarbonate damage and will not be covered under this limited warranty. Please refer to the cleaning instructions supplied with all National Cycle windshields.
