Note:

Tips for facilitation of operation, control and adjustment, as well as maintenance work.

CONTENTS OF KIT

Item	Description	Part No.	Qty.
1	Headlight Guard with Quantum® Hardcoat		1
Bag#1154			
2	Velcro Hook	77-771159-000	9
3	Velcro Loop	77-771160-000	9

TOOLS REQUIRED:

- T10 Torx
- Grease Pencil or Crayon

PREPARATION

The Velcro® Industrial grade fasteners will securely hold your Quantum Hardcoated Polycarbonate Headlight Cover to the motorcycle's headlight.

For best performance and adhesion the Headlight Cover and motorcycle surface should be a minimum of 65 °F (18 °C)

Cleaning is critical. Be sure to clean the headlight rim and remove all wax, cleaners, and protectants (Armor-All). These can contaminate the adhesive causing it to fail.

INSTALLATION

1. For ease of installation, it is recommend to remove the Headlight Rim. **(T10Torx) Figure 1**

2. Apply 4 pieces of Velcro Loop to Rim. Position Velcro Dot at inside edge of Rim as shown in inset. **Figure 2**

3. Align the Headlight Cover to Rim. Make 4 marks on the *outside* of the Guard where the Hook will match to the Loop. **Figure 3 (Grease Pencil)**

4. Install Hook at the mark on the *inside* of the Guard. Press down to ensure good contact of adhesive with Guard. **Figure 4**

 Let Velcro Hook and Loop cure for 5 minutes before installing Headlight Guard.

5. Re-install Rim to motorcycle. **(T10 Torx)**

6. Install Guard. Align Loop fastener with Hook and press into place until fully engaged. Wipe marks from Guard. **Figure 5**

CLEANING AND MAINTENANCE

To clean the guard, wash with a clean soft cloth, plenty of warm water and if necessary, a non-abrasive soap such as dishwashing liquid. Flannel or soft chamois make good cleaning cloths. Paint, glue residue or tar removal: Moisten cotton with naphtha or turpentine **followed by a wash as above.**

Do not clean the guard with abrasive cleaners, alcohol, or strong solvents. Except as recommended above for paint, glue, or tar removal.
